2114 2) The vision specialist may indicate the driver's eyesight condition is
2115 deteriorating or warrants monitoring by recommending periodic re-
2116 examination of the driver's eyesight on the vision specialist report ~~form~~.
2117 The Department must follow the recommendation of the vision specialist.
2118 Routine vision examinations requested by the vision specialist will not

2120 driver.
2121

2122 3) The Department shall notify the driver of the requirement to submit an
2123 updated vision specialist report to be completed by the vision specialist

2146 the person may reapply for a driver's license as outlined in IVC
2147 Section 6-106.
2148
2149 5) If the Department receives an incomplete vision specialist report, a request

2151
2152 A) If the Department does not receive this information within 45 days
2153 after the request, the Department shall cancel or deny the issuance

2167 Section 6-109, to determine if the licensee meets minimum vision standards.
2168
2169 p) The Department shall require a driver to appear at a Driver Services Facility to
2170 receive a corrected driver's license if the visual acuity or visual peripheral
2171 readings warrant a change, the vision specialist recommends a driver's license
2172 restriction, or the facility representative issued a driver's license based on the
2173 vision specialist report with the wrong restriction pursuant to Section 1030.92.
2174
2175 q) The Department shall provide two written notifications to the driver at the last
2176 known address indicated on the Department's driving record file. The final notice
