

Illinois Commission on Equity and Inclusion

Nina M. Harris, Chairperson
Alexandria M. Wilson, Executive Director
115 S. LaSalle Street 4th Floor
Chicago, IL 60603

February 27, 2026

Governor Pritzker and Members of the General Assembly:

On behalf of the Illinois Commission on Equity and Inclusion (CEI) and pursuant to 30 ILCS 575/8f, I am pleased to present the Fiscal Year 2025 (FY25) Annual Expenditure Report for the Business Enterprise Program for Minorities, Women, and Persons with Disabilities (BEP).

CEI continues to focus on strategic prioritization to meet its statutory objectives and support its BEP goals. CEI's mission is to maximize supplier diversity, equity, and inclusion by ensuring access to contracting opportunities and developing procedures and initiatives that make the procurement process inclusive, fair, and equitable, while providing support, education, and mentorship. CEI's vision is to be a trailblazing leader in fostering a diverse, equitable, and inclusive procurement environment where supplier diversity, equity, and inclusion are celebrated and opportunities are accessible to all, driving positive social impact and economic growth.

CEI is dedicated to transformational community progress and to fulfilling its statutory responsibilities while fostering collaboration with internal and external stakeholders. This includes engagement with the four chief procurement officers, all state purchasing officers, and approximately 108 agencies, boards, commissions, and public institutions of higher education to align strategies and initiatives with the broader statewide supplier diversity goals.

This report highlights progress and identifies the FY25 BEP achievement of State agencies and public institutions of higher education subject to the Business Enterprise for Minorities, Women, and Persons with Disabilities Act.

CEI is committed to building on last fiscal year's successes while addressing areas for improvement. We will continue leveraging data-driven insights and stakeholder feedback to refine BEP strategies and processes, with a focus on enhancing supplier diversity, equity, and inclusion across all facets of procurement. Through ongoing collaboration and a shared commitment to our mission, we are confident we can create meaningful, lasting change that benefits all stakeholders in Illinois' procurement landscape.

Respectfully,

A handwritten signature in black ink that reads "alexandria m. wilson".

Alexandria M. Wilson, JD, CPPB
Executive Director

**Commission on Equity and Inclusion
Business Enterprise Program Annual Expenditure Report
Fiscal Year 2025**

Revised 3-27-26

**Business Enterprise Program
Fiscal Year 2025 Annual Expenditure Report
BEP Achievement Executive Summary**

The Commission on Equity and Inclusion (CEI) submits this Fiscal Year 2025 (FY25) Business Enterprise Program (BEP) Annual Expenditure Report on behalf of the Business Enterprise Council for Minorities, Women, and Persons with Disabilities (BEP Council) to Governor Pritzker and the General Assembly. This report outlines the qualified State of Illinois (State) dollars spent subject to the BEP aspirational goal, provides a review of CEI's fiscal year 2025 (FY25) programmatic accomplishments, illustrates the performance of the State agencies and public institutions of higher education subject to the Business Enterprise for Minorities, Women, and Persons with Disabilities Act (BEP Act) during FY25, and includes an analysis of the number of BEP-certified vendors. This BEP Annual Expenditure Report details achievement levels by each State purchasing entity (agency, public universities, and community colleges) toward the 30% aspirational BEP goal for State contracts and the 20% aspirational BEP goal for State construction contracts outlined in the BEP Act.

The BEP Act requires each agency and public institution of higher education subject to its provisions to file an annual report detailing their utilization of businesses owned by minorities, women, and persons with disabilities during the preceding fiscal year, including spending from the lapse period. This report must contain a self-evaluation of the purchasing entity's efforts to meet the supplier diversity goals outlined in the BEP Act, along with strategies to enhance the diversity of vendors engaged in contracts with the purchasing entity, particularly emphasizing those most underrepresented in contract awards. The data in this report was submitted to CEI by the purchasing entities subject to the BEP Act in their FY25 Annual BEP Expenditure Reports.

BEP continues to support, promote, and encourage the economic development of minorities, women, and persons with disabilities participating in State procurement as prime vendors and subcontractors. Through engagement and collaboration with other partnering organizations and stakeholders, BEP expands its impact by increasing participation in State contracting opportunities.

BEP Expenditure Achievement Highlights

Illinois achieved significant gains in goal attainment alongside record-breaking total BEP spending in FY25, demonstrating expanded opportunities for BEP firms and stronger alignment with the statutory aspirational goals. These gains are evident across overall BEP performance and within the WBE, MBE, and PBE sub-goals in both construction and non-construction contracting.

Updated Calculation Methodology in FY25

Beginning in FY25, each purchasing entity independently determined its Dollars Subject to the Goal (DSG), and CEI used these entity-reported DSG values to measure progress toward the 30% BEP aspirational goal for non-construction State contracting and the 20% aspirational goal for State construction contracting. Under the BEP Act, these aspirational goals apply to the total dollar amount of State contracts, not to entities' overall budget allocations, and cover all qualifying State contracts that are not subject to federal reimbursement.

To calculate DSG in FY25, purchasing entities first entered the total dollars spent on both construction and non-construction State contracting, including lapse period expenditures, not just dollars spent with BEP

firms. After establishing these total contracting amounts, entities reported the total approved FY25 individual and class exemptions for both construction and non-construction contracts, consistent with the BEP Act and related rules. CEI then subtracted the approved exemption amounts from the total contracting dollars, producing separate DSG values for construction and non-construction contracting for each entity.

This FY25 methodology differs from the DSG approach used in FY22, FY23, and FY24, when DSG was not derived from entity-specific, bottom-up reporting of total State contracting dollars and approved exemptions in this manner. As a result, FY25 DSG figures and the corresponding BEP performance percentages are more closely aligned with the statutory framework of the BEP Act and provide a clearer, more accurate picture of progress toward the State's aspirational goals across both construction and non-construction contracting categories.

Record Achievement and Goal Progress

In FY25, Illinois achieved approximately **\$1.62 billion in total BEP spending**, exceeding the State's prior three-year BEP expenditure levels and setting a new high-water mark for dollars awarded to BEP-certified vendors. When measured against the updated, entity-reported DSG, State purchasing entities collectively achieved 14% of non-construction DSG and 8% of construction DSG with BEP firms in FY25, reflecting meaningful progress toward the 30% and 20% aspirational goals, respectively.

In non-construction contracting, entities secured more than 1.08 billion in BEP awards from roughly 7.76 billion in DSG, resulting in 46.6% of the statutory 30% goal and 14% of DSG awarded to BEP firms. In construction contracting, entities received over \$532 million in BEP awards from approximately \$6.84 billion in DSG, equating to 38.9% of the statutory 20% goal and 8% of DSG awarded to BEP firms.

FY25 results also underscore strong performance across BEP sub-goals, particularly for Women Business Enterprises (WBEs) and Minority Business Enterprises (MBEs). In non-construction contracting, WBE firms received about \$592 million, achieving 25.4% of the 10% WBE goal and 8% of DSG, while MBEs received roughly \$395 million, achieving 17.0% of the 16% MBE goal and 5% of DSG. Similarly, in construction contracting, WBE firms achieved approximately \$285 million, representing 20.8% of the 7% WBE goal and 4% of DSG, and MBE firms achieved about \$243 million, or 17.8% of the 11% MBE goal and 4% of DSG. Purchases with Persons with Disabilities Business Enterprises (PBEs) also contributed to overall BEP progress, including nearly \$98.5 million in non-construction and more than \$4.3 million in construction contracting in FY25.

Over the FY22–FY25 period, Illinois has shown consistent growth in BEP achievement. Although methodological changes to the DSG calculation in FY25 make the DSG percentages not directly comparable to prior years, the trend in total BEP dollars and the strong FY25 DSG percentages indicate sustained and expanding opportunities for BEP vendors.

Operational Accomplishments

In recent years, the BEP has undergone remarkable transformations to enhance its commitment to supplier diversity, equity, and inclusion in state procurement processes. FY25 marked a significant expansion, which is crucial to ensuring that BEP continues to offer robust support and opportunities to vendor partners. Additionally, CEI led several initiatives, including the launch of a new supplier diversity management system, the adoption of updated policies, and the introduction of various innovative

projects. These efforts reflect CEI's ongoing dedication to promoting a diverse, equitable, and inclusive business environment throughout Illinois.

BEP Certification Unit

The BEP certification unit remains committed to fostering economic inclusion and expanding opportunities for minority-, women-, and persons with disabilities-owned businesses in the State of Illinois. Throughout FY25, the unit continued to prioritize accessibility, efficiency, and transparency in the certification process while navigating significant system transitions, refining internal operations, and maintaining a strong focus on vendor support and customer service.

At the start of FY25, the unit fully transitioned to the new Supplier Diversity Management Portal (SDMP). As with most technology transitions, this shift brought expected challenges and a learning curve as staff and vendors adapted to new workflows, manual update requirements, and system features. The unit remained responsive throughout the transition, prioritizing vendor support and internal training to ensure continuity of service and data accuracy. At the conclusion of FY25, the unit had 2,869 active BEP-certified firms. The decline in certification numbers was due to significant structural and administrative changes, not to a reduction in program popularity or value. Key factors included the transition to the new SDMP, which required vendors to manually update their information because of anticipated changes in system integrations. While this marked a shift from prior automated processes, vendors were supported throughout the transition. Additional factors included delays and procedural changes among the host agencies for recognition certification. Other contributing factors included data-sharing limitations among recognition partners, national shifts in reciprocity and certification standards, and the cumulative effects of complex procurement processes that can be difficult for small and diverse firms to navigate. Despite these challenges, the unit took proactive measures to enhance vendor engagement and support, maintaining the program's integrity and accessibility.

The unit expanded its capacity in FY25 by onboarding a new certification analyst, which helped balance the workload and maintain operational continuity. These efforts contributed to a measurable improvement in processing performance, **reducing the average application processing time from 47 days to 42 days**. Additionally, **the unit conducted 121 site visits**, reinforcing compliance standards and ensuring the integrity of certified firms' operations. Throughout FY25, the unit upheld its commitment to high-quality customer service and accessible support for vendors. The unit **facilitated 48 virtual office hours**, providing real-time guidance to applicants and certified firms. Certification staff also supported the outreach unit by **attending and/or presenting at more than 20 outreach events**, strengthening engagement with diverse businesses statewide and reinforcing program awareness. FY25 also marked the implementation of the Rotational File Assignment Pilot Program, which introduced a group-based approach to assigning certification analyst files. This model emphasized teamwork, equitable workload distribution, and shared accountability, while supporting adherence to administrative rules and reducing the backlog. Analysts rotated through specific application types monthly, promoting consistency and a systematic review process.

Additionally, CEI **issued targeted communications to 4,126 recognition certification vendors** (BE BEP, FastTrack, and Veterans Business Program Recognition) with important instructions on certification and recognition renewals. To further support the business community, CEI updated the certification webpage to improve clarity and instructional guidance and worked with Outreach to refresh related training materials.

Monthly internal meetings remained a cornerstone of operational effectiveness, providing a forum for collaboration, knowledge sharing, and discussion of policy updates and workflow improvements. Staff regularly shared best practices in file processing and daily operations, reinforcing consistency and efficiency across the unit. Standard Operating Procedures (SOPs) were updated throughout the fiscal year to reflect refined processes and evolving operational needs.

BEP Compliance Unit

CEI's BEP compliance unit remains a cornerstone of excellence in advancing supplier diversity across the State's procurement ecosystem. The unit provides rigorous oversight of BEP contracting compliance, including best-in-class goal-setting for contracts, thorough review of exemption requests, authoritative determinations on goal waiver requests, comprehensive evaluation of Utilization Plans (U-Plans), and proactive monitoring of BEP-certified prime and subcontractor participation. Through precise reporting and responsive technical assistance, the unit delivers unparalleled support to all agencies, boards, commissions, and public institutions of higher education subject to the BEP Act.

With the launch of the SDMP, the BEP Compliance Unit has achieved a major milestone in modernizing and elevating equitable procurement practices statewide. The portal streamlines supplier diversity contracting by enhancing contract monitoring and providing an advanced BEP compliance dashboard that delivers real-time data visualization and reporting. Its robust statistical tracking creates a live feedback loop that provides actionable insights into progress toward BEP goals for each solicitation and the purchasing entity's overall performance, making it an invaluable enterprise-wide resource for CEI. To complement these technological advancements, the unit will implement a refined goal-setting methodology, a standardized U-Plan template, updated goal waiver and exemption request forms, and other process improvements aligned with leading industry practices. The unit is also strategically focused on filling all vacancies to further expand its operational capacity and service excellence.

In FY25, the unit demonstrated exceptional productivity and impact. The unit **processed 108 compliance plan submissions**, reflecting a growing and commendable commitment by purchasing entities to meet the aspirational supplier diversity goals established under the BEP Act. A total of **137 U-Plan responsiveness reviews were conducted**, with 68 U-Plans meeting responsiveness criteria, underscoring strong adherence to BEP requirements across the procurement community. The unit also **completed 607 goal-setting form reviews**, reinforcing accountability and precision in advancing supplier diversity objectives. In addition, **108 annual reports were received and analyzed**, yielding critical insights into BEP prime and subcontractor goal achievement across active contracts. The unit designed, developed, and implemented a new tracking system to monitor the receipt and logging of the BEP Council's review of the revised FY25 Compliance Plan. This new plan template requires procuring institutions to respond to questions that outline their efforts to increase opportunities for BEP-certified vendor participation.

The compliance team delivered timely, high-quality assistance and guidance to vendors and purchasing entities, clarifying compliance requirements and resolving issues professionally and efficiently. The unit consistently produced authoritative reports that ensured data accuracy and provided real-time performance insights, empowering informed decision-making and continuous improvement. Moreover, the unit's presence at pre-bid conferences reinforced its role as a trusted partner, proactively addressing concerns and challenges faced by BEP vendors and purchasing entities alike.

BEP Council and Sheltered Market Updates

A sheltered market is the result of a procurement procedure in which certain State contracts are selected and set aside through competitive solicitations for businesses owned and controlled by minorities, women, and persons with disabilities. Sheltered markets are established by the BEP Council when a pattern of racial, gender, or disability-based discrimination is found in a particular industry. When establishing a new sheltered market or adjusting an existing one, the BEP Council identifies and reviews the necessary evidence. The two sheltered markets currently available are IT/telecom and advertising. The sheltered market for advertising is limited to certified African-American-owned and Hispanic-owned business enterprises.

The regular sheltered market segment on the full BEP Council agendas allows members to discuss the status of supplier diversity achievements and any deficiencies resolved by sheltered markets. During this segment, the BEP Council receives, reviews, and discusses progress in using BEP firms and any evidence of past or present racial, ethnic, or gender-based discrimination that directly affected an agency, board, commission, or public institution of higher education contracting with such firms.

During FY25, the BEP Council continued to oversee and evaluate existing sheltered markets, including reviewing supplier diversity outcomes and available evidence of discrimination in relevant industries. Although the BEP Council did not establish new sheltered markets in FY25, it remained engaged in assessing the need for future sheltered markets and in ensuring that any potential expansions are driven by documented disparities and aligned with statutory requirements.

GLOSSARY

- BEP** Business Enterprise Program for Women, Minorities, and Persons with Disabilities
- CEI** Commission on Equity and Inclusion
- DSG** Dollars Subject to the Goal – Purchasing entities determine the total dollars spent on both construction and non-construction contracting. After determining the total state contracting dollars spent in both areas, including lapse period spend (not just dollars spent with BEP firms), the entities deducted total approved FY25 individual and class contract exemption amounts for both contract groups. The exemption totals were subtracted from the contracting dollar totals, resulting in separate DSG values for non-construction and construction purchases.
- MBE** Minority Business Enterprise
- PBE** Persons with Disabilities Business Enterprise
- SWS** Sheltered Workshop - For this report submission, a sheltered workshop is a 501-C3 not-for-profit organization that employs persons with disabilities to participate in contracts with the State of Illinois through the State Use Program. Pursuant to recent regulatory changes, these contractual expenditures were counted only toward a purchasing entity's spend with businesses owned by persons with disabilities (PBE) through January 21, 2025.
- WBE** Woman-owned Business Enterprise
- WCE** Woman-owned Caucasian Enterprise
- WME** Woman-owned Minority Enterprise

DSG Formula Explanation

For FY25, each purchasing entity determined its Dollars Subject to the Goal (DSG) using a revised formula, and CEI used each entity's DSG to measure overall progress toward the 30% BEP aspirational goal for non-construction State contracting and the 20% aspirational goal for State construction contracting. The updated DSG formula reflects that the BEP Act applies these aspirational goals to purchasing entities' total state contract dollar amounts, not their total budget allocations.

The BEP Act defines State contracts as all contracts entered into by the State, any agency or department thereof, or any public institution of higher education, including community college districts, regardless of the source of funds used to pay them, that are not subject to federal reimbursement. The BEP Act defines State construction contracts as all State contracts entered into by a State agency or public institution of higher education for the repair, remodeling, renovation, or construction of a building or structure, or for the construction or maintenance of a highway defined in Article 2 of the Illinois Highway Code.

To calculate the DSG, purchasing entities first input the total dollars spent on both construction and non-construction contracting. After determining the total state contracting dollars spent in both areas, including lapse period spend (not just dollars spent with BEP firms), the entities were asked to enter the total approved FY25 individual and class contract exemption amounts for both contract groups. The exemption totals were subtracted from the contracting dollar totals, resulting in separate DSG values for non-construction and construction purchases.
