Dear Secretary Anderson and Clerk Hollman,

Subsection 1-10(b)(25) of the Illinois Procurement Code provides an exemption from some of the Code's requirements for purchases that are necessary for the Department of Early Childhood to design and build integrated, operational systems of programs and services. Products and services procured under this exemption must be for use only by the Department.

The Code requires the Department to report to the General Assembly quarterly with a list of expenditures and contracts for which the Department uses this exemption.

The document attached to the email with this letter provides the list as of the end of September 2025.

Please let us know if you have any questions.

Sincerely,

Thomas Bazan
Chief Fiscal Officer
