**In Car Camera Report**

To whom it may concern,

The Farmer City Police Department received 4 Axon in car cameras from the grant.

Currently we have 3 for the 4 in car cameras installed. We have one vehicle that is down for mechanical issues and may be sold. The 4<sup>th</sup> camera will be installed once the vehicle is repaired or replaced. The vehicles are shared by the officers, and they can log into the system and assign vehicle cameras.

The in-car camera systems are used to document calls for service, traffic stops, interviews, transport etc. The body cameras are designed to be used in conjunction with the body camera system or independently as in car camera alone.

The Axon evidence system automatically downloads the video from the in-car cameras into the secure evidence library upon completion of the videos. The videos are reviewed monthly or when needed by the chief of police or his designee.

Please see the attached form for the list of events related to the camera's use.

Respectfully Submitted,

  
Nathan Guest  
Chief of Police  
Farmer City IL, 61842
