Body Camera Report

To whom it may concern,

The Farmer City Police Department received 7 Axon Body Cameras from the grant.

All 5 department full time officers were assigned a body camera to be worn while on duty. Two cameras are assigned to the part police officers or used as back units in case of damage, dead battery, etc.

The body camera systems are used to document calls for service, traffic stops, interviews etc. The body cameras are designed to be used in conjunction with the in car camera system or independently as body camera alone.

The Axon evidence system automatically downloads the video from the body cameras into the secure evidence library upon completion of the videos. The videos are reviewed monthly or when needed by the chief of police or his designee.

Please see the attached form for the list of events related to the camera's use.

Respectfully Submitted,

Nathan Guest
Chief of Police
Farmer City IL, 61842
