40 ILCS 5/16-128

from Ch. 108 1/2, par. 16-128

Amends the Downstate Teacher Article of the Illinois Pension Code. In a provision concerning the contribution required to establish service credit for certain service as a teacher or administrator employed by a private school recognized by the Illinois State Board of Education, changes the amount of the interest payment required to establish that service credit from interest at the actuarially assumed rate to regular interest.

Pension Note (Government Forecasting & Accountability)

SB 4010 changes the interest rate applied to payments made to purchase optional service credit for years worked as a teacher or administrator in a private institution recognized by the Illinois State Board of Education. This legislation would apply regular interest rather than the actuarially assumed rate currently used by TRS. The precise fiscal impact of this legislation is unknown as of this writing because the number of teachers who may purchase this optional service credit during the current window period (which closes on June 30, 2028) is not known. However, lowering the interest rate from the actuarially assumed rate (currently 7.00% for TRS) to regular interest (set at 6% under current law) may result in member payments that are less than actuarially neutral. Therefore, SB 4010 could have a negative fiscal impact on TRS, commensurate with the number of teachers who elect to purchase this service credit and the difference between the two interest rates.

Amends the Environmental Protection Act. Provides that an owner or operator of a community water supply may, by an additional method approved by the State, give written notice of the existence of lead service lines that are connected to buildings. Provides that an owner or operator of a community water supply that performs at least 4,000 lead service line replacements per year or exceeds a statutorily prescribed lead service line replacement rate is exempt from a provision that prohibits partial lead service line replacements. Provides that, in a municipality with a population of more than 1,000,000 inhabitants, the owner of a private property upon which there is located a renter-occupied building, a building that is used as a day care, or a multi-dwelling building must allow the community water supply access to replace the lead service line on the private side of the property.

Senate Floor Amendment No. 2

Replaces everything after the enacting clause with the provisions of the introduced bill with the following changes. Deletes provisions added by the introduced bill that exempted from specified requirements a community water supply that has performed at least 4,000 lead service line replacements per year since 2025 or that exceeded certain specifications. Provides that, in a municipality with a population of more than 1,000,000 inhabitants, the owner of private property (rather than the owner of private property upon which there is located a renter-occupied building, a building that is used as a day care, or a multi-dwelling building) must allow the community water supply or the community water supply's contractor (rather than only the community water supply) access to the property to replace, on the private side of the property, the lead service line or the galvanized requiring replacement service line (rather than only the lead service line) if the community water supply is offering the replacement at no cost to the property owner. Specifies that, if the owner of the private property is unavailable or unwilling to provide consent to replace the lead service line or the galvanized requiring replacement service line, any legal occupant of the private property where the service line is located may provide consent for access to the community water supply or the community water supply's contractor. Provides that the legal occupant shall be held harmless for providing access, completing forms, or for the completion of replacements of the lead service line or the galvanized requiring replacement service line. Calls upon the Trump administration to end the government shutdown and restore funding to SNAP and other critical federal government programs rather than continuing to put partisan politics before their obligation to the American people.
